

Anti-Spatter 2100

Powder & Coating Remover-Dissolver

Anti Spatter is a liquid concentrate that is diluted with water at varying levels (as determined) which imparts an "anti-stick" anti-spatter to welding gun tips and joined metals.

Anti Spatter provides ash free properties that eliminates residue build up on welding tips and protects parts being welded from spatter.

Does not turn tacky, sticky or polymerize during storage of parts. Does not impact the weld reliability and reduces post weld processing saving time and money.

Features & Benefits

- Liquid concentrate that can be diluted with water if desired.
- Biodegradable. Nonflammable. Odorless.
- Increase productivity.
- Reduce grinding and prepping.
- Easily removed by simple water rinse or alkaline wash.
- Voc, solvent & silicone free.
